Lavvanya is the signature brand of the Alankar Group of Companies, dedicated to redefining luxury through its exquisite range of lab-grown diamond jewelry. We are passionate about crafting timeless elegance, where every piece is designed to embody sophistication and grace—seamlessly blending modern artistry with classic charm.

At Lavvanya Jewels, we take pride in our commitment to sustainability and ethical practices, ensuring that each jewel not only enhances your style but also reflects our core values. Discover the perfect expression of beauty and individuality with Lavvanya Jewels—where every creation is a masterpiece, thoughtfully designed to celebrate your unique story.

Our Story

100% Diamonds!

CVD diamonds are created through an advanced process that replicates nature, producing lab-grown diamonds identical to natural ones in chemical, physical, and optical properties. Grown layer by layer from a tiny carbon seed, each diamond is then expertly cut and polished to reveal exceptional brilliance, scintillation, and fire.

Why Choose CVD Diamonds?

100% Conflict-Free & Ethical

Environmentally Responsible

Better Value for the Same Brilliance

Identical to Natural Diamonds

LAVVANYA
ALANKAR GROUP OF COMPANIES

A conscious sparkle, with zero compromise.

Authenticity

Lab-grown diamonds are certified by the same gemological labs that certify mined diamonds. Institutes like IGI and GIA ensure the quality and authenticity of every diamond.

Quality

At Lavvanya-Alankar Jewelz, we specialize in CVD (Chemical Vapor Deposition) diamonds — known for their superior purity and brilliance. Each diamond is meticulously selected to meet the highest standards of the 4 Cs — Cut, Color, Clarity, and Carat — ensuring every piece reflects timeless elegance and perfection.

LAB GROWN

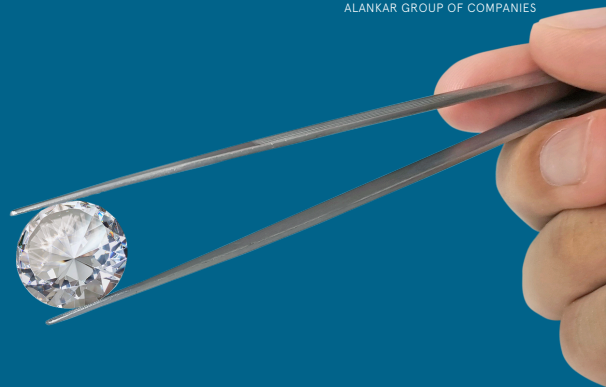

Future of LGD

The future of lab-grown diamond jewelry is promising, seen as a luxury statement and a smart investment. Buyers value their beauty, quality, and sustainability. Lab-grown diamonds represent the future of luxury.

Ethical & Sustainable Choice

Lab-grown diamonds are created with minimal environmental impact and without the ethical concerns associated with traditional mining. Choosing LGD means supporting a cleaner, more responsible future for luxury jewelry.
